Mayor Pro-Tem Don Langston stated that the next item for consideration was a bid on thirteen (13) 2011 Chevrolet Tahoe 2-Wheel Drive Police Pursuit Vehicles (PPV) to Caldwell Country Chevrolet, in the amount of four hundred sixty-one thousand one hundred forty-nine dollars (\$461,149).

City Manager Paul Parker stated that there were seven (7) patrol units that were designated to be replaced during the 2009/2010 Budget Year. City Manager Parker added that because of the mileage on the vehicles at the time, and the condition of the units, Staff postponed replacing the units for one (1) year. City Manager Parker stated that this was the reason why thirteen (13) units were being brought to the City Council for replacement at one (1) time. City Manager Parker added that approximately six (6) months earlier, the Council authorized the purchase of one (1) unit so that a Tahoe could be purchased and tested to see how well it would perform. City Manager Parker stated that the traditional vehicles for the Police Department was the Crown Victoria and was no longer being made. City Manager Parker added that the City would therefore have to change to a different make of vehicle. City Manager Parker stated that Staff felt that the Tahoe would be the best vehicle, and that the officers that had driven the Tahoe had very good service and performance from the vehicle. City Manager Parker added that the Tahoe actually had gotten a little better gas mileage than the Crown Victorias. City Manager Parker stated that Staff also thought the Tahoe would have good resale value. City Manager Parker stated that one (1) problem was that the first year a vehicle was purchased would require additional equipment, because the equipment would not match the new vehicle. City Manager Parker stated that there would be a lot of first time expenses, and then as the City changed Tahoes, in future years, the equipment could be utilized on replacement vehicles. City Manager Parker stated that the Police Department had worked diligently on the specifications for the vehicles. City Manager Parker added that Staff thought that the City would get a better price than the usual practice of going through the BuyBoard, because of the specifications. City Manager Parker explained that individually the thirteen (13) units would cost twenty-five thousand five hundred forty dollars (\$25,540) with an additional nine thousand nine hundred thirty-three dollars (\$9,933) in equipment costs. City Manager Parker added that the Toughbooks were not included in the price however. City Manager Parker stated that the total price for the thirteen (13) units was four hundred sixty-one thousand one hundred forty-nine dollars (\$461,149) from Caldwell Country Chevrolet. City Manager Parker added that Caldwell Country Chevrolet was where the first Tahoe had recently been purchased from. City Manager Parker stated that if approved, all of the existing patrol vehicles would have been replaced, with the exception of the traffic unit, which had five (5) remaining Crown Victorias. City Manager Parker stated that all of the units had between eighty-five thousand (85,000) and one hundred thousand (100,000) miles on them. City Manager Parker explained that the vehicles had many more hours of running time than it did in just mileage. City Manager Parker stated that Staff recommended that the City Council approve the purchase of thirteen (13) pursuit rated utility vehicles (Chevy Tahoes), in the total amount of four hundred sixty-one thousand one hundred forty-nine dollars (\$461,149), or individually at a cost of thirty-five thousand four hundred seventy-three dollars (35,473).

Assistant Police Chief Gerald Williamson explained that Police Department Staff had done quite a bit of research on the vehicles available for purchase at the current time. Assistant Chief Williamson added that the Police Department was sad to see the Crown Victorias go, because they were such good vehicles for well over a decade. Assistant Chief Williamson stated that Chevrolet had a new Caprice available for purchase, and looked like it would be a good vehicle, but was actually more expensive than the Tahoe. Assistant Chief Williamson

added that Staff did not want to go with a vehicle that was new or in its first year on the market. Assistant Chief Williamson stated that the vehicle that Ford was replacing the Crown Victorias with was a front wheel drive vehicle, and was the Taurus. Assistant Chief Williamson explained that past experience had shown Staff that the Taurus was not a very durable vehicle for municipal police usage. Assistant Chief Williamson stated that Staff believed that the safest bet would be to go with the Chevrolet Tahoe, which was a durable vehicle with a truck based construction. Assistant Chief Williamson added that other agencies had been using the Tahoe, and had reported excellent results from the durability standpoint.

Mayor Pro-Tem Langston asked for questions or comments from the Council.

Councilmember Lynn Torres moved to approve the bid on thirteen (13) 2011 Chevrolet Tahoe 2-Wheel Drive Police Pursuit Vehicles (PPV) to Caldwell Country Chevrolet in the amount of four hundred sixty-one thousand one hundred forty-nine dollars (\$461,149).
